

Instant Pot Hard "Boiled" Eggs & Lazy Devils

Ingredients

- 8 large eggs or the maximum that will fit in a single layer in the steamer insert

Method

1. Pour 1 cup (250ml) of water into your Instant Pot.
2. Place the silicone steamer insert inside and carefully arrange your eggs in a single layer on top.
3. Set the pressure cooker to cook under high pressure for 6 minutes.
4. Fill a big mixing bowl with water and ice cubes.
5. As soon as the eggs are finished cooking, manually release the pressure by turning the vent on top to "Venting."
